RIZKY PUTRA ICHFIANDRA

putrarizky0206@gmail.com | +6285945965404 | https://www.linkedin.com/in/ichfiandra/

Software Engineering student at BINUS University, 1st Winner of Freshmen Project B2028, with 11+ shipped digital products from Figma to production on Vercel. Experienced across machine learning, web, and mobile development, and currently mentoring freshmen as First Year Program Leader B2029. Seeking a software engineering internship in a real team.

EDUCATION

BINUS University 2024 – Present
Bachelor Degree in Software Engineering
Relevant Coursework: Software Engineering, Machine Learning, Data Structure

SMAN 1 Cibinong
High School Diploma - MIPA (Science) 2021 – 2024

ORGANIZATIONAL EXPERIENCES

First Year Program Leader B2029 Mar 2025 – Present
BINUS University @Bekasi

Mentor freshmen through the BINUS First Year Program, guiding academic & campus adjustment and fostering community through orientation events.

Student Led Learning (SLL) Organizer – Design Thinking Framework Apr 2026 – Jun 2026
Binus University @Bekasi

Designed and delivered a 5-session Design Thinking curriculum for freshmen, mentoring students and managing end-to-end program logistics.

Project Manager Freshmen Day Binusian 2029 Sep 2025 – Oct 2026
Binus University @Bekasi

Planned the Freshmen Day event end-to-end, coordinating teams and logistics.

Associate Trainer & Mentor Freshmen Chaperone B2029 Sep 2025 – Oct 2026
Binus University @Bekasi

Trained freshmen chaperones and mentored them through the new-student onboarding period.

PROJECT

SiPresMa UCN — Facial Recognition Attendance System Mei 2026
Next.js | Prisma | PostgreSQL | NextAuth | face-api.js (github.com/RizkyPutraIchfiandra/SiPresMa-UCN)

Storing only 128-d vectors (no raw photos), admin dashboard with real-time stats.

Personality Reranker — Bilingual AI Response Quality Classifier Oct 2026
Python | mBERT | React | TypeScript (github.com/RizkyPutraIchfiandra/PersonalityReranker)

4 trained models (mBERT fine-tuned, Small Transformer, Bi-LSTM, TF-IDF) rating AI responses.

Moodreader — Sentiment Analysis Web App Oct 2026
React | Python/scikit-learn (github.com/RizkyPutraIchfiandra/Moodreader)

EN + ID sentiment; sklearn weights to JSON, scored client-side & no backend to host.

Finku — Expense Tracker Mobile App Oct 2026
React Native | Expo | Supabase | TypeScript (github.com/RizkyPutraIchfiandra/Finku-MoneyTracker)

Daily & monthly allowance tracking with Supabase backend, expo-router, NativeWind.

SKILLS

- Programming: Python (ML/data), JavaScript/TypeScript (React, Next.js), SQL (PostgreSQL), Prisma, Git
- Design: Figma (UI/UX), Canva (4+ yrs, Certified), Tailwind CSS
- Tools: Vercel, Expo, Supabase, Jupyter, pandas, scikit-learn
- Languages: Indonesian (native), English (conversational)
